ARCH EURASIA 2020

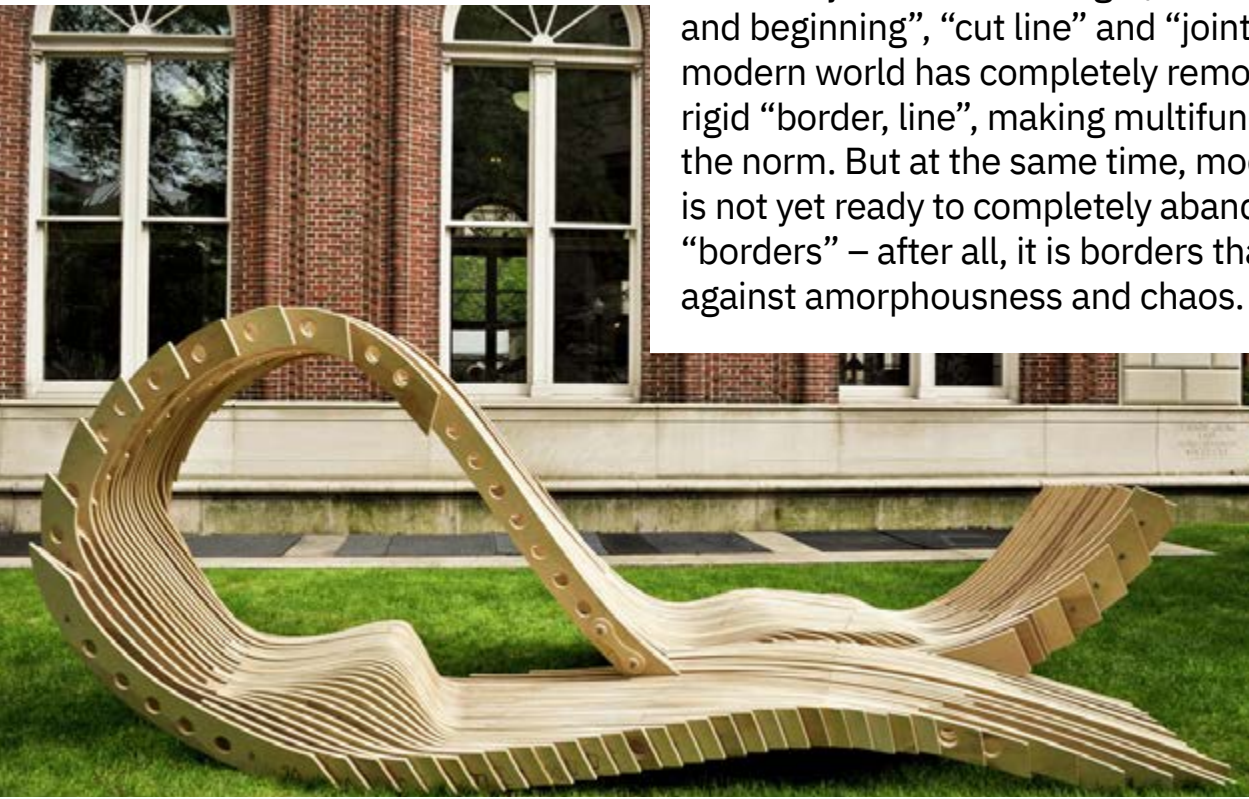

On the eve of the Summit of Architects, Urbanists and Designers “ArchEurasia 2020” (October 1-3, Yekaterinburg), the Organizing Committee of the “Eurasian Prize” announces a creative competition for the concept of architectural objects – outdoor furniture, hardcape. The theme is “Borders that unite”.

ARCH EURASIA

«BORDERS THAT UNITE» CONTEST OF CREATIVE IDEAS

The definition of “border” is not as straightforward as it seems at first glance: it is not only “border and edge”, but also “end and beginning”, “cut line” and “joint”. And the modern world has completely removed the rigid “border, line”, making multifunctionality the norm. But at the same time, modernity is not yet ready to completely abandon “borders” – after all, it is borders that protect against amorphousness and chaos.

Creation of an object of an architectural landscape, in which the boundaries do not become the limit, but reveal new facets of familiar objects, is not an easy task. And given the new post-pandemic reality, this is also extremely relevant. How to create a bench (**fountains, benches, street urns, chair, table, gazebo, sandbox – any object**) that separates and unites at the same time? How can you add unexpected functionality to a familiar object while maintaining a familiar border? The participants of the Competition must answer these questions.

TIMELINE

The collection of projects will last until **September 20**.

Thirty finalists will be announced on **September 25th**. Their projects will be exhibited at the exhibition within the framework of the International Summit “ArchEurasia”.

On October 1, an exhibition of finalist projects will open at the ArchEurasia 2020 Summit.

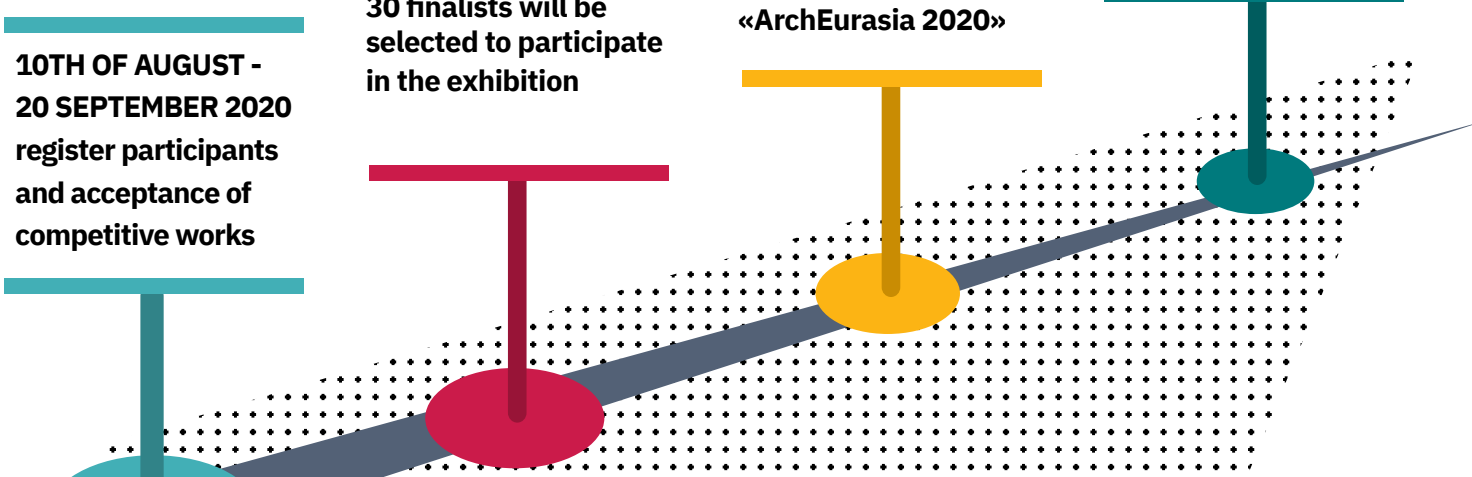

During the ArchEurasia Summit, three (3) best ideas will be selected by an authoritative jury for implementation and will become objects of urban installations at the central sites of Yekaterinburg in **June 2021**.

**10TH OF AUGUST -
20 SEPTEMBER 2020**
register participants
and acceptance of
competitive works

September 20 - 25
30 finalists will be
selected to participate
in the exhibition

1 - 10 OCTOBER
Exhibition of works
by the finalists during
the Summit
«ArchEurasia 2020»

JUNE - JULY, 2021
Implementation of 3
projects for participation
in the exhibition-
installation in the center
of Yekaterinburg

REQUIREMENTS

The object of the architectural landscape should be developed on the basis of existing technologies and materials, taking into account operating conditions.

To differentiate the product and find optimal solutions, it is proposed to use the following scenarios:

- 1. an architectural and landscape object for public spaces, taking into account new realities;**
- 2. multifunctional architectural and landscape object with flexible terms of use or modular sections with additional functionality;**
- 3. urban element as an art object.**

■ **The construction must be solid and based on real materials and technology.**

■ **The architectural landscape object must comply with the general safety requirements and external conditions.**

■ **The object of the architectural landscape should be simple and economical to manufacture.**

MAIN EVALUATION CRITERIA:

- * **aesthetics**
- * **innovativeness**
- * **functionality**
- * **solution to the problem**
- * **feasibility**
